The Department of Housing and Urban Development (HUD) has posted the Fair Market Rents (FMRs) for the fiscal year 10/01/2022 through 09/30/2023. FMR's are used in the calculation of flat rents for Public Housing units. PHAs are required to establish flat rents at no less than 80 percent of the FMR for their jurisdiction.

FMRs are developed to include rent plus the cost of all necessary utilities. In the case where the PHA tenant family is responsible for making direct utility payments to the utility company, as is the case with GMAHA housing units at Oak Grove, William Young Homes, and Warren Tower/Heights/Place, the flat rent is adjusted by the utility allowance per the most recently approved Utility Allowance Schedule.

At the admissions, families choose between the flat rent and the income –based rent. During the annual re-examinations, PHAs must offer an annual rent option, where the family may choose to pay either the lower of the flat rent or the calculated income-based rent.

The table above represents the final FFY 2023 FMR rates, the current GMAHA Public Housing Flat Rent Schedule and the proposed FFY 2023 GMAHA Public Housing Flat Rent Schedule (adjustment for utility payments have been made to the “Current and Proposed flat rents listed).

Written comments to the Public Housing Flat Rents may be submitted to the central office through the 30 day comment period ending November 13, 2022.
