World Health Day, celebrated on April 7, marks the founding of the World Health Organization (WHO) and serves as a global health awareness day. Each year, the day highlights a specific health theme, drawing attention to pressing health challenges worldwide. "My Health, My Right" was the theme for the year 2024. The aim is to promote universal health care, access to essential medicines, and the well-being of all individuals, emphasising the need for health equity and fostering initiatives for healthier societies.
