

Northern Illinois Council of Housing Administrators

This spring The Northern Illinois Council of Housing Administrators will award thousands of dollars in education grants to students in good standing who participate in Public Housing or Section 8. That means an education grant is available to students at your housing authority who are about to enter their first year of formal post high school education or who are current college students continuing their education.

Funds may be used for college admission test preparation, tuition, books, approved activity fees, or other items approved of by your Housing Authority provided they are education-related. Those who are participating in a Family Self-Sufficiency program are shown extra consideration when awards are made.

In order to apply you will need:

- An endorsement letter from your Housing Authority CEO
- Your school transcript **or** proof of your GED
- Two letters of recommendation
- An essay regarding what you would like to do with your life and how an education grant can help you achieve this goal.

Hurry!

The application deadline is Friday, March 31, 2023 at 5 PM CST.
